Promise:

Join Me for a Brand New 14 Day Challenge Where I'll Walk You Step-By-Step Through the Exact Process I Used to Launch My 8-Figure Business... even if you're a complete beginner.

Pain:

So you've heard about starting an online business but not sure where to start?

I don't blame you.

With so much bad information online, it's easy to get confused.

And bad information can lead to thousands of wasted dollars and hundreds of wasted hours...

Leaving you no better than where you started.

Proclamation:

The Internet is Dead Wrong about How to "Make Money Online."

This morning I decided to Google that phrase and see what came up..

But what I found was a little frustrating.

Countless sites talking about filling out surveys, watching commercials, and sharing posts for pennies.

(No thanks.)

Then there was a litany of cashback apps.

^ uhhhh pretty sure 3% cashback on compression socks isn't funding anyone's retirement.

The most popular suggestion - I kid you not - was playing poker online.

Ugh!

No wonder beginners are royally confused and frustrated...

The information they're provided is dead wrong and dangerous.

Let's change that right now.

Secret:

This is how my Digital Marketing students are crushing it in 2019.

-They're not drop-shipping trinkets from China...

...and pray they somehow go viral....

-They're not getting into FBA...

...and having all of their margins eaten up by Amazon.

-They're not spending months trying to "Rank and Rent" SEO sites...

...and expect local businesses to pay them a ton of change for little result.

-And they're DEFINITELY not buying more "training courses"

...seriously.

You know,

The ones that teach the latest strategy or "hack," then wish them well and send them off.

Nope.

None of it.

The way my students are finally finding success in their online business in 2019....

Story

This is How I Bought My First Ferrari Without Becoming a Doctor or a Dealer

But first, I should tell you...

In 2001 my parents lost their entire life savings in the horrific Worldcom scandal.

We were on the verge of losing our family home and the two part-time jobs I managed while going through Med School wasn't cutting it.

I knew starting an internet business was the opportunity of a lifetime but the information online was insanely confusing.

- Open an online store
- Source products from China
- Create a brand
- Fulfill Orders
- Handle Shipping
- Deal with Customer Service

I was drowning in the chaos of it all.

That's when I discovered Affiliate Marketing.

As an affiliate, I didn't need to do any of that stuff.

I simply picked out products I thought were awesome and got paid to promote them, and the companies handle everything else.

The result?

In a few months I was able to:

- Save my family home
- Put my siblings through college
- Build a business that supports my family
- And Bought that Ferrari ;)

...from simply promoting products I loved.

"What would you do if you lost everything and had to start completely from scratch." 🤔

I get this question a lot so thought I'd do my best to answer it.

And when I say scratch, I mean little to nothing.

No way to do real estate deals,

Or run Ads on social media channels,

Or use my reputation to broker deals.

But lean in close because I'm about to tell you EXACTLY what I would do.

It may not sound flashy but it's THE method that works!

In fact, it's a method that's worked as long as there's been an internet.

And what I'm about to tell you is the very thing I'll do in the event of a market crash

Or housing bubble

Or student loan crisis -

Whatever the next thing that sends the economy in a tailspin might be.

Ready for it?

I would grow my Email List and become an affiliate to the world's best online companies.

No questions asked.

I would grow my email list and send them relevant offers that I know they're gonna love.

Don't believe me?

You don't need to look any further than one of my mentors, Anthony Morrison.

You may have noticed that while most of the gurus out there are hopping from one opportunity to the next...

He's been promoting the same business model for the past 15 years.

Now, that doesn't mean the industry has stayed exactly the same...

You gotta keep up with the times.

So he put together a Free 14 Day Challenge that walks through everything there is to know about getting started the right way, Step-By-Step.

I'm also included a copy of his brand new book you can use as a reference whenever you get stuck.

So click the link below and get started ASAP so you're caught up with the rest of the group:
